## BASIC PHONE FEATURES

### PLACING A CALL

#### Using the Handset:

Pick up the handset, and then dial the number. Or, dial the number first, and then pick up the handset.

#### Using the hands-free Speakerphone:

- With the handset on-hook, press , any assigned line key, or the **New Call** soft key. Then, enter the number.
- or
- Dial the number, and then press  or the **Send** soft key.

#### Using the optional Headset:

- With the headset connected, press , any assigned line key, or the **New Call** soft key.
- or
- Dial the number, and then press .

*During a call, you can alternate between modes by pressing  or  or picking up the handset.*

### ANSWERING A CALL

**Handset:** Pick up the handset.

**Speakerphone:** Press , the line key, or the **Answer** soft key.

**Headset (optional):** Press .

*Incoming calls may be ignored by pressing the **Reject** soft key or  during ringing.*

### ENDING A CALL

Press the **End Call** soft key or the line key corresponding to the line. Or, depending on the call mode, press , press , or hang up the handset.

### REDIAL

Press  to call the most recently dialed number.

### MICROPHONE MUTE

During a call, press . Mute applies to all modes. You can hear all other parties while Mute is enabled, but other parties cannot hear you.

To un-Mute, press  again.

### CALL HOLD AND RESUME

During a call, press  or the **Hold** soft key.

Press  again, the **Resume** soft key, or the line key to resume the call.

### LOCAL CONFERENCE CALLS<sup>1</sup>

#### To create a three-way local conference call:

1. Connect to the first party.
2. Press the **Confrnc** soft key to create a new call (the active call is placed on hold).
3. Place a call to the second party.
4. When the second party answers, press the **Confrnc** soft key again to join all parties in the conference.

#### Conference Behavior:

- Placing the conference call on hold will place the other conference parties on hold.
- Pressing the **Split** soft key will split the conference into two separate calls on hold.
- A conference may be created between an active call and a call on hold by pressing the **Join** soft key.

### DO NOT DISTURB (DND)<sup>2</sup>

To prevent your phone from ringing:

Press , and then select **Features > Do Not Disturb**. An icon appears for all lines to confirm that DND is enabled. To disable DND, select **Do Not Disturb** again.

### CALL TRANSFER

1. During a call, press the **Trnsfer** soft key (the active call is placed on hold).
2. Place a call to the party to whom you want to transfer the call.
3. After speaking with the second party, press the **Trnsfer** soft key.

*Press the **Blind** soft key to transfer the call without speaking to the second party.*

*Transfer can be cancelled during establishment by pressing the **Cancel** soft key. The original call is resumed.*

### CALL FORWARDING<sup>3</sup>

#### To enable call forwarding:

1. Press the **Forward** soft key from the idle screen or press  and select **Features > Forward**.
2. Select a **Forwarding Type**. Forward **Always**, on **No Answer**, or on **Busy**.
3. For all types, enter a number to forward all future calls to. For **No Answer**, enter the number of rings before forwarding.
4. Press the **Enable** soft key to confirm Call Forwarding. A moving arrow icon appears for that line..

#### To disable call forwarding:

Perform steps 1 and 2, but select **Disable**.

*Call forwarding is not available on shared lines.*

<sup>1</sup> - Optional feature. Must be configured from the call server.

<sup>2</sup> - Dependant on call server configuration.

<sup>3</sup> - Behavior will vary if this feature is configured from the call server.

## CALL LISTS

From the idle screen, press for Speed Dial, for Missed Calls, for Received Calls, or for Placed Calls. Or, press , then select **Features > Call Lists > Missed Calls, Received Calls, or Placed Calls.** Call information will be displayed.

From this screen, select:

- **Edit** to amend the contact number before dialing.
  - **Dial** to place the call.
- Or press **More**, and select **Info, Save, or Clear.**

## VOICE MAIL<sup>4</sup>

A voice mail icon on the screen, a flashing line key, and a stutter dial tone indicate one or more new voice mail messages.

To listen to voice messages:

1. Press , and then select **Message Center.**
2. Press the **Connect** soft key, and then follow the voice prompts.

## PHONE LOCK

Lock your phone with a user password to prevent unauthorized access.

To lock the phone:

1. Press , and then select **Settings > Basic > Lock Phone.**
2. Chose to **Allow ringing when locked** or enable **DND when locked** for incoming calls.
3. Press the **Lock** soft key to confirm.

To unlock the phone:

1. Press the **Unlock** soft key
2. Enter the user password and press enter.

## SPEED DIALING

To assign a speed dial index, see the **CONTACT DIRECTORY** section.  
To dial a contact assigned to a line key, press the corresponding line key.

## CUSTOMIZING YOUR PHONE

### CONTACT DIRECTORY

To add a contact in your local phone directory:

1. Press , and then select **Features > Contact Directory.**
2. Press the **More** soft key, and then the **Add** soft key.
3. Enter first and/or last name from the dial pad.  
Press the **1/A/a** soft key to select between numeric and upper / lower case alphanumeric modes.  
Press the **Encoding** soft key to access special characters in other languages.
4. Enter a unique contact phone number (not already in the directory).
5. Change the other fields as desired.
6. Press the **Save** soft key to confirm the changes, then press twice to return to the idle screen.

*Contacts can be easily added from Call Lists. For more information, see the **CALL LISTS** section.*

To search for a contact:

1. Press , and then select **Features > Contact Directory.**
2. Press the **More** soft key, and then the **Search** soft key.
3. Using the dial pad, enter the first few characters of the First or Last name.
4. Press the **Search** soft key. Dial successful matches from the results.

To edit a contact:

1. Search for the contact (see above).
2. Press the **Edit** soft key and make the necessary changes.
3. Press the **Save** soft key to confirm the changes, then press twice to return to the idle screen.

### VOLUME ADJUSTMENT

Press the volume keys to adjust the call volume of the active mode. Pressing these keys in idle state adjusts the ringer volume.

*To conform to regulatory requirements, handset and headset volume will return to a preset level after each call, but the configuration can be changed by your system administrator. Hands-free volume settings will be maintained across calls.*

### RING TYPE

You can select different rings to match your preferences and distinguish between calls on lines.

To change the incoming ring:

1. Press , and then select **Settings > Basic > Ring Type.**
2. Scroll to highlight the desired ring type. Press the **Play** soft key to hear it.
3. Press the **Select** soft key to accept the highlighted ring type, and then press to return to the idle screen.

*If you select Silent ring, press the Line key or Answer soft key to answer incoming calls.*

### AUDIBLE RINGER

You can select the default alerting destination for incoming calls.

To change the audible ringer:

1. Press , and then select **Settings > Basic > Preferences > Audible Ringer.**
3. Scroll to highlight the desired alerting destination for incoming calls.
4. Press the **Select** soft key to accept the highlighted destination, and then press to return to the idle screen.

### DISTINCTIVE RINGING / CALL TREATMENT

You can set distinctive incoming ringing tones for different contacts in your local directory.

To set a distinctive ring for a local contact:

1. Press , and then select **Features > Contact Directory.**
2. Search for the contact (see the **CONTACT DIRECTORY** section).
3. Press the **Edit** soft key and scroll down to Ring Type.
4. Using or , select the desired ring tone.
5. Press the **Save** soft key to accept the change, and then press to return to the idle screen.

### HEADSET MEMORY MODE

For frequent or full-time headset users, there is an option to default all calls to the headset.

To enable Headset Memory Mode:

1. Press and select **Settings** followed by **Basic, Preferences, Headset, and Headset Memory.**
2. Scroll down to **Enable** and press the **Select** soft key.

To disable Headset Memory Mode:

Repeat steps 1 and 2, but select **Disable.**

To activate Headset Memory Mode (if enabled):

Press twice.

TOGETHER, GREAT THINGS HAPPEN.

<sup>4</sup> - This feature must be enabled from the call server.
